The WS-DS2-6348 is a rectangular version of our customizable Designer Series stone hearth ovens. Typical configurations include two parallel doorways and the option for an in-oven grill which turns it into a “grill oven”. Radiant burner(s) can be added in multiple locations depending upon oven configuration. Other customization includes the ability to place a Viewing Window on either side or on the back. A slightly larger WS-DS2-7248 model is also available.

The Designer Series utilizes Wood Stone’s signature 4-inch thick, single piece, monolithic cast-ceramic floor for superior heat retention and durability. It is capped by a 4-inch thick monolithic cast-ceramic dome. This dense high-temperature ceramic formulation of the floor and dome create a “deep heat sink” within the chamber of the oven.

The oven arrives completely assembled, ready to install and is made in the USA. The stand can be removed on-site for challenging situations. Information about custom finishes, tools and accessories can be found online at: woodstone-corp.com.

**FUEL CONFIGURATIONS**

**GAS-FIRED ONLY:** Configured to burn either natural gas (NG) or liquid propane (LP).*

- **RADIANT FLAME (RFG):** Heated by an easily adjustable radiant flame located in the rear of the cooking chamber. User control ensures the ability to balance the oven’s radiated top heat with the heat being conducted and radiated from the floor.

- **WOOD-FIRED (W):** Wood-fired only.

- **COMBINATION (-W):** Allows optional wood burning for ovens with gas burner configurations.* **Note:** Adding wood to an oven with an RFG burner will reduce available hearth capacity.

*Gas type must be specified at time of order.

ELECTRICAL
Gas-Fired Only and Combination
120 VAC, 1.2 A, 50/60 Hz
Connection is made underneath the oven.

240 VAC, 1.2 A, 50/60 Hz
also available.

VENTING INFORMATION

Designer Series 6348 ovens can be direct connected to a power-ventilated, grease-rated chimney, or can be vented with a Listed Type 1 exhaust hood, or one constructed in accordance with NFPA 96 and all relevant local and national codes. Note: Broiler models must be vented with a Listed Type 1 exhaust hood. The oven must be vented in accordance with all relevant local and national codes, and in a manner acceptable to the authority having jurisdiction. Important: "W" models must be vented as solid-fuel oven.

Ship Weight: 3,900 lbs / 1,769 kg
