Model

WS-GPL-4836-CT01

Item#

WS-GPL-4836-CT01 model shown.

FEATURES

- Four Heat Zones
- Temperature Range of 150° F to 650° F.
- Stainless Steel Backsplash
- Removable Drip Trays
- Optional Stand with Casters Available

WS-GPL-4836-CT01 with optional stand shown.

A high performance alternative to a standard flat top griddle, the Wood Stone Gas Plancha brings the power and caramelization of a gas charbroiler to a direct contact cooking surface. The highly engineered Gas Plancha delivers heat when and where it is needed with four thermostatically controlled and individually adjustable zones. This allows the Wood Stone Gas Plancha to support a range of cooking temperatures simultaneously.

The 3/4-inch thick smooth steel cooking surface is heated by four 27,500 BTU/hr burners (NG). The Gas Plancha utilizes an amazingly responsive proprietary control system developed by Wood Stone, which provides uniform, consistent temperature control across the entire cook surface. Heat-recovery is fast, even under the most demanding loads.

The surface of the Gas Plancha can be used like a griddle as a direct contact cooking surface for searing or sautéing. With a temperature range from 150° F to 650° F, it's well suited to a wide variety of culinary applications with higher temperature ranges, allowing you to achieve the color and flavor of a chargrill.

The Gas Plancha features a small footprint that measures 48 inches x 36 inches with a 48-inch x 24-inch cooking surface. Supported by four legs, it is intended for installation on a suitable countertop or on the optional stand with front locking casters, available from Wood Stone.

The Gas Plancha must be vented with a Listed Type 1 exhaust hood, or one constructed in accordance with NFPA 96 and all relevant local and national codes.

The Gas Plancha arrives completely assembled, ready to install, and is made in the USA.

Note: At this time, this product is only available in North America.
