## MT. OLYMPUS SOLID FUEL ROTISSERIE WITH OPTIONAL CHARBROILER

Job Name	
Model	WS-SFR-(6, 10)-BROILER
Item#	

The body of the Mt. Olympus Rotisserie is constructed of 16-gauge polished stainless steel. It comes with a durable, high-temperature ceramic firebox and when ordered with the optional extended firebox Charbroiler includes seven 6 x 24-inch cast iron grates (five grates for narrow models). The rotisserie is powered by 1/4 HP, variable speed, DC motor with soft start and stop, matched with a robust two-stage gearbox.

The 6 spit unit is standard. Each spit is 44 inches long (32 inches long for narrow models), giving the rotisserie a capacity of 36–42 chickens (18–24 for narrow models). The optional 10 spit model, with all 10 spits in place, is suitable only for chicken and has a capacity of 60–70 birds. The controller and motor can be located on either side of the unit—this must be specified at the time of order. The Mt. Olympus is easily serviced via an access panel located on the controller side of the unit. A 6.5-cubic foot stainless steel Wood Handling Cart is provided with each rotisserie for easy wood storage below. Additionally, a grease receptacle, Particle Shovel, Grate Tool and T-Style Brass-Bristled Brush is also included.

The unit is ETL Listed and is made in the USA. Information about additional tools and accessories can be found online at: [woodstone-corp.com](http://woodstone-corp.com).

# MT. OLYMPUS SOLID FUEL ROTISSERIE WITH OPTIONAL CHARBROILER • WS-SFR-#-BROILER

**Note:** The drive side is determined from the rear of the unit and can be installed on either side of the unit. The right-hand drive model mirrors the left-hand drive model (shown below) exactly. Drive side must be specified at the time of order.

This unit is on casters. Service access is from the side panels—both sides must be accessible for service.

**\*Drawings are of a 6 spit model with a left-hand drive.**
