Fire Deck 9660

Fire Deck 11260

Fire Deck 11275

Fire Deck 9690

Fire Deck 11290

THE HIGH PRODUCTION WORKHORSE

Favored by leaders in the Fast Casual Pizza scene, the Fire Deck ovens are serious workhorses with the muscle and consistency required by ultra-high volume restaurants.

- Rectangular Footprint
- Bright Visible Flame
- High Production
- Ideal for Rectangular Pan Cooking
- Multiple Openings & Viewing Windows Available
- 4" - 6" Thick Floor & 4" Thick Dome
- Gas, Wood or Combo
- Underfloor Infrared Burner Option
- Facade Friendly
- High-Temp Cooking
- Listed to 1, 2, 3
- Mantle Included

The approximate maximum hourly production can be calculated by multiplying pizza capacity by 12 for 5-minute bake times, or multiplying capacity by 20 for 3-minute bake times. Bake times will also vary depending on style of pizza.

Note: The addition of a decorative flame will decrease space and impact overall cooking capacity, and is not recommended on the Fire Deck 6045.

Pizza Capacities

Size	12" / 300mm	16" / 400mm
Fire Deck 6045	6 pizzas	3 pizzas
Fire Deck 8645	10 pizzas	6 pizzas
Fire Deck 9660	18 pizzas	8 pizzas
Fire Deck 11260	21 pizzas	10 pizzas
Fire Deck 11275	28 pizzas	14 pizzas
Fire Deck 9690	25 pizzas	16 pizzas
Fire Deck 11290	35 pizzas	20 pizzas

OVEN OPTIONS & EXTRAS

FUEL CONFIGURATIONS

Wood Stone ovens are available in a number of different fuel configurations. Combination fuel sources also available.

Radiant Flame Burner (Gas)

A manually controlled wall of bright and powerful radiant gas flames. (RFG)

Underfloor Infrared Burner (Gas)

A powerful thermostatically controlled burner located beneath the ceramic hearth of the oven. (IR)

Wood-Fired (Solid Fuel)

A fire of well-seasoned hardwood burning within the ceramic hearth of the oven. (W)

Coal-Fired (Solid Fuel)

A fire fueled by Anthracite coal burning within the ceramic hearth of the oven. (CL)*

**Wood Stone has a specialty line of Fire Deck Series ovens dedicated to Anthracite coal-fired configurations. For additional information, please visit our website at woodstone-corp.com.*

FACADE EXTENSIONS

Mountain Series only

Wood Stone offers a wide range of installation accessories to help make your final oven installation seamless and attractive. See examples of how to use the extensions online with Wood Stone Facade Tutorials.

FACADE TUTORIALS

Bring your vision to life! These visual, step-by-step tutorials showcase a variety of facade options and also outline how to utilize Wood Stone facade extensions. Available for download at woodstone-corp.com.

CUSTOM FINISHES

Our ovens are available with a variety of finish options, including custom metal, color powder coat, stucco, and facade-ready cement board for on-site facade material application.

TOOLS & ACCESSORIES

Wood Stone offers a complete line of tools and accessories for use with all of our cooking equipment. Visit us online to view our tool and accessory offerings. *Wood-Fired tool set for stone hearth ovens shown.*

Standard Arch

Low Arch Wide

Low Arch Narrow

ARCH OPTIONS

How you plan to use your Wood Stone oven will determine which arch style is right for you.

Standard Arch

By far our most popular arch because of its versatility, blending the best flame visibility, chef accessibility and menu adaptability.

Low Arch Wide

Offers a higher temperature cooking chamber, while still offering good visibility and accessibility.

Low Arch Narrow

For customers who are willing to trade visibility and accessibility in pursuit of the Naples or Neapolitan style experience.

VENTING OPTIONS

Wood Stone ovens must be vented in accordance with pertinent local, regional, and national codes (NFPA 96) concerning such appliances; check venting plans with the authority having jurisdiction before proceeding with installation.

Exhaust Hoods and Fans

For our complete line of exhaust hoods and fans, as well as venting information on specific oven models, visit us at woodstone-corp.com

NEW OVEN OPTIONS & EXTRAS

DEBRIS MANTLES

Catch crumbs and wrangle waste!

Wood Stone's new patent pending Debris Mantle is designed for easy crumb and debris collection. Keep your burners clear by collecting debris in two convenient removable trays. Slide the trays out for easy emptying and wash them in any standard commercial dishwasher.

Available for Fire Deck and Mountain Series ovens.

BAKE SHELVES

Add another level to your Fire Deck!

Wood Stone's new Bake Shelves are designed to quickly add additional space inside your oven. Position the shelves flush with the back wall and expand your menu with wings, meatballs, tots, roasted veggies or bread sticks, baking at approximately 100° F higher than the floor.

Available for Fire Deck ovens.

PLANCHAS

Gas Plancha 4-Zone 48"

Gas Plancha 3-Zone 36"

Gas Plancha 2-Zone 24"

Electric Plancha 4-Zone 40"

HIGH VOLUME & MULTI-ZONE COOKING

Powerful, Versatile, Consistent. Do more in less space with adjustable temperatures from 150°- 650° F (Gas) and 300°- 700° F (Electric). Wood Stone Planchas are the high performance alternative to both a standard flat top griddle and a gas charbroiler. Quick heat up and recovery let you achieve the flavor profile and texture you want every time. With thermostatically controlled and individually adjustable zones, our Planchas can support a range of cooking temperatures simultaneously. Cook delicate food at a low temperature in one zone while searing in another.

- Two to Four Independently-Controlled Zones
- Versatile Temperature Range
- Consistent Temperature, Zero Recovery
- Grill Faster in Less Space
- Stainless Steel Backsplash
- Removable Drip Trays
- Optional Stand with Casters Available for Gas Planchas
- Listed to 1, 2
- Available only in North America

RICE COOKER

INNOVATIVE
the Power
NEW
to Perform
PRODUCTS

QUALITY RICE WITH REDUCED OPERATIONAL COSTS

A gas countertop unit that cooks in 1/3 size pans, our Gas Rice Cooker cooks consistently, in a variety of profiles and batch sizes, with less waste, using up to 40% less fuel.

Our patent pending technology allows for precise cook profiles and increased consistency. Rice is evenly cooked throughout with no overcook or burning.

Reduce employee training and eliminate steps in your rice cooking process. Just pour rice and water into pan, cover, select rice type, press start, cook, remove pan and place directly in holding cabinet or serving line – with less food handling, there is less risk of food contamination.

Continuously cook 1, 2, or 3 pans independently. Cook different products, in flexible batch sizes, on demand or all at the same time.

Use less energy and labor, with less waste. No large bowls to clean and hand wash, less overcooked rice wasted, and up to 40% fuel savings.
